

DevOps / Cloud Engineer

InfraScale Technologies

LOCATION: Hyderabad, India | Hybrid

ABOUT THE ROLE

InfraScale Technologies is hiring a DevOps/Cloud Engineer to manage our cloud infrastructure, automate deployments, and ensure high availability of our SaaS platform.

RESPONSIBILITIES

- Design and manage cloud infrastructure on AWS/GCP/Azure
- Build and maintain CI/CD pipelines using Jenkins, GitHub Actions, or GitLab CI
- Implement Infrastructure as Code using Terraform or CloudFormation
- Manage containerized workloads with Kubernetes and Docker
- Monitor system health using Prometheus, Grafana, or Datadog
- Implement security best practices and compliance controls
- Automate operational tasks using Python or Bash scripting

REQUIRED SKILLS

- 3+ years of DevOps or cloud engineering experience
- Strong hands-on experience with AWS (EC2, S3, RDS, Lambda, EKS)
- Proficiency in Terraform or Pulumi for IaC
- Experience with Kubernetes and Docker
- CI/CD pipeline development (Jenkins, GitHub Actions)
- Scripting skills in Python or Bash

PREFERRED SKILLS

- AWS/GCP/Azure professional certifications
- Experience with service mesh (Istio, Linkerd)
- Knowledge of GitOps (ArgoCD, Flux)
- Familiarity with ELK stack for log management

EDUCATION: B.Tech in CS, IT, or related field

EXPERIENCE: 3–6 years
