

VIKRAM IYER

Bangalore, India | vikram.iyer@email.com | +91-9845678901 | github.com/vikramiyer

SUMMARY

AI Engineer with 3 years building production LLM applications, RAG pipelines, and intelligent automation systems. Hands-on with GPT-4, Claude, LangChain, and vector databases.

EXPERIENCE

AI Engineer | Aisera, Bangalore | 2022 – Present

- Built RAG pipeline processing 50K+ enterprise documents with 92% retrieval accuracy
- Implemented agentic workflows using LangChain and LlamaIndex
- Integrated GPT-4 and Claude APIs into SaaS products
- Used Pinecone and FAISS for vector search at scale
- Deployed models on AWS SageMaker with A/B testing via MLflow
- Fine-tuned Mistral-7B using QLoRA for domain-specific tasks

ML Engineer | Flipkart, Bangalore | 2021 – 2022

- Built recommendation system using collaborative filtering
- Deployed models to production with FastAPI wrappers

SKILLS

AI/ML: LangChain, LlamaIndex, HuggingFace, OpenAI API, Anthropic API

Vector DBs: Pinecone, FAISS, Chroma, Weaviate

Fine-tuning: LoRA, QLoRA, PEFT

MLOps: MLflow, W&B, SageMaker

Languages: Python

Frameworks: FastAPI, Streamlit

EDUCATION

M.Tech, AI | IIT Hyderabad | 2021
