

SURESH REDDY

Hyderabad, India | suresh.reddy@email.com | +91-9866001122 | github.com/sureshrde

SUMMARY

Data Engineer with 4 years building large-scale ETL pipelines, data warehouses, and real-time streaming systems. Expert in Spark, Airflow, and Snowflake.

EXPERIENCE

Senior Data Engineer | Myntra, Hyderabad | 2022 – Present

- Built ETL pipelines processing 5TB+ daily data using Apache Spark
- Designed Snowflake data warehouse serving 50+ BI dashboards
- Orchestrated 100+ DAGs using Apache Airflow
- Implemented dbt models for data transformation layer
- Set up Kafka streaming for real-time event processing (1M events/day)

Data Engineer | Mu Sigma, Hyderabad | 2020 – 2022

- Built Python-based ETL jobs for client data ingestion
- Managed AWS Redshift clusters and S3 data lake
- Wrote complex SQL queries and stored procedures

SKILLS

Processing: Apache Spark, PySpark, Flink (basic)

Orchestration: Apache Airflow, dbt

Warehouses: Snowflake, BigQuery, Redshift

Streaming: Kafka, Kinesis

Cloud: AWS (S3, Glue, EMR), GCP (BigQuery, Dataflow)

Languages: Python, SQL, Scala (basic)

EDUCATION

B.Tech, CS | JNTU | 2020
