

KAVITHA SUBRAMANIAN

Chennai, India | kavitha.s@email.com | +91-9443556677

SUMMARY

4.5 years as Data Engineer specializing in cloud data platforms, pipeline automation, and data quality frameworks. Strong in GCP and BigQuery ecosystem.

EXPERIENCE

Data Engineer | Swiggy, Chennai | 2021 – Present

- Designed and maintained 80+ data pipelines using GCP Dataflow and Apache Beam
- Built BigQuery data warehouse with star schema modeling
- Used dbt for transformation with 95% test coverage
- Implemented Delta Lake for reliable data lake operations
- Created Airflow DAGs for scheduling and monitoring pipelines

Data Engineer | Mindtree, Chennai | 2019 – 2021

- Developed PySpark jobs for batch data processing
- Built AWS Glue ETL workflows and Redshift schemas
- Kafka consumer implementation for event streaming

SKILLS

Cloud: GCP (BigQuery, Dataflow, Cloud Storage, Composer), AWS (Glue, S3, Redshift)

Processing: Apache Spark, PySpark, Apache Beam

Orchestration: Airflow, dbt, Cloud Composer

Streaming: Kafka, Pub/Sub

Storage: Delta Lake, Apache Iceberg

Languages: Python, SQL

EDUCATION

B.E., Information Technology | Anna University | 2019
