

GAYATHRI NAIR

Bangalore, India | gayathri.nair@email.com | +91-9886001234

SUMMARY

Cloud Engineer with 3.5 years specializing in GCP and multi-cloud architectures. Expert in Kubernetes, Terraform, and GitOps practices.

EXPERIENCE

Cloud Engineer | Razorpay, Bangalore | 2021 – Present

- Architected GCP infrastructure using Terraform (IaC for 200+ resources)
 - Managed GKE (Google Kubernetes Engine) clusters with auto-scaling
- Built GitOps deployment pipelines using ArgoCD and GitHub Actions

- Implemented Istio service mesh for microservice communication
- Set up Datadog monitoring with custom dashboards and alerting
- Migrated 15 services from VMs to Kubernetes reducing infra costs by 40%

DevOps Engineer | Freshworks, Bangalore | 2020 – 2021

- CI/CD pipeline development using Jenkins and Docker
- GCP resource provisioning and IAM management

SKILLS

Cloud: GCP (GKE, Cloud Run, Cloud SQL, Pub/Sub), AWS (basic)

IaC: Terraform, Pulumi

Containers: Kubernetes, Docker, Helm, Istio

CI/CD: GitHub Actions, ArgoCD (GitOps), Jenkins

Monitoring: Datadog, Prometheus, Grafana

Scripting: Python, Bash

Certifications: GCP Professional Cloud Architect, CKA

EDUCATION

B.E., IT | VTU | 2020
