SUMMARY

Software Developer with 3 years in Python backend development. Has worked with Docker and AWS deployments but not specialized in DevOps/infrastructure.

EXPERIENCE

Software Developer | Infosys, Indore | 2021 – Present

- Built Python/FastAPI backend services
- Dockerized applications for consistent deployments
- Used AWS EC2, S3, and RDS for application hosting

- Basic GitHub Actions for automated testing

- No dedicated Kubernetes or Terraform experience

Junior Developer | TCS, Indore | 2020 – 2021

- Backend Python development
- Manual deployment processes

SKILLS

Strong: Python, FastAPI, Docker, basic AWS

Limited DevOps: GitHub Actions (basic), no Terraform, no Kubernetes

Cloud: AWS user-level (not infrastructure management)

EDUCATION

B.Tech, CS | DAVV | 2020
